

RECALL NOTICE

AIRBORNE® IMMUNE SUPPORT GUMMIES 63-COUNT BOTTLES

HAZARD

Pressure build up in the bottle can cause the cap and underlying seal to pop off with force when opened for the first time, posing an injury hazard.

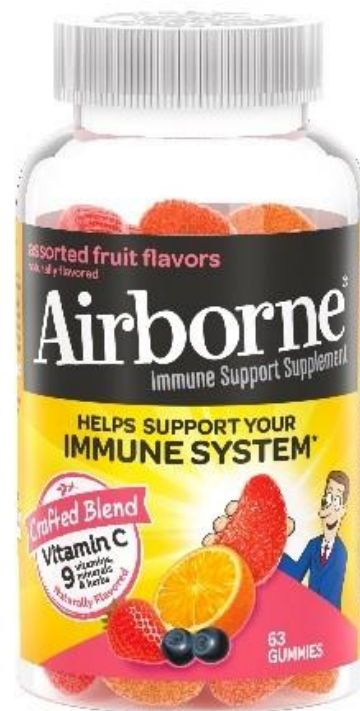

REMEDY

Consumers with unopened bottles of 63-count AIRBORNE® BRAND GUMMIES should not attempt to open the product and should contact Reckitt to return the unopened bottles to receive a full refund. Postage-paid labeling will be provided for the item to be returned.

IMPORTANT: Bottles that have already been opened are not subject to this recall as they would have released any pressure build up and do not present an injury hazard. The product inside is safe to consume according to label directions.

Use the lot code search tool on our website to identify whether your product is included in this recall:
